Vehicle in Motion

On 10/23/2009 around 2330 hours, I was traveling south on SR 527 approaching in the 240th St Se intersection. A silver Jeep Grand Cherokee approached the intersection on 240th, and then pulled onto south bound SR 527 directly in front of my vehicle. The Jeep pulling out in front of my car made it so I had to brake dramatically to prevent from striking the Jeep. The Jeep proceeded south on SR 527 and crossed the double yellow line 4 times in a two block span. After crossing the double yellow, the Jeep would jerk back to the right, two times over correcting too much causing the Jeep to cross the white fog line. Then the Jeep jerked back to the left to get the vehicle straight again.

The Jeep was heading south on SR 527 with speeds between 5 and 10 miles per hour constantly. After getting through the S turns at the south end of SR 527, I activated my lights and siren to stop the vehicle in the Right Aide parking lot. After lighting up the Jeep, it pulled into the lot and then parked in a drive thru lane of an espresso stand instead of parking in a legal parking space.

Personal Contact

After the vehicle stopped I contacted the driver. I explained the reason for the stop, and asked the driver for her license and registration. The driver, later identified as Bridget Ferguson, told me her ID was in her wallet that was in a bag on the passenger seat. I could see her wallet was in the front left pocket of her fleece coat pocket. I could clearly see the wallet from my view point. I asked her again where her wallet was and she was insistent her wallet was in her bag. I told her wallet was in her pocket and she laughed. During this exchange, I saw Bridget's eyes were blood shot and watery and there was a faint odor of intoxicants coming from the car. Bridget began speaking to someone in the car, and I asked her who she was speaking to. I looked in the back of the car to make sure I did not miss anyone in the backseat and all I saw were empty car seats. I then looked into the very back of the Jeep at the same time Bridget told me her two daughters were asleep in the very back of the car. I asked her why her children were not buckled up in their respective seats and she told me because she just picked up her kids and they were asleep and she did not want to wake them.

Pre-Arrest Screening

I explained to Bridget why I stopped her vehicle and then asked if there was someone to pick up her kids, so they did not have to witness their mother going through FSTs with the Police. She called a family friend Susan Nelson, and Susan responded to the location of the stop and Bridget put her kids in the car with Susan. Susan had the appropriate car seats in the car and she has a valid license.

Once the kids were away from the location of the stop, I again asked Bridget if she would be willing to submit to voluntary field sobriety tests, and she agreed. We walked over to the location to perform the FSTs, and Bridget stumbled twice while we were walking 10 feet. The first test I administered was the HGN. Bridget informed me she does wear corrective lenses, but they are soft contacts. During this test there was equal tracking and pupil size in both eyes. During the FST, there was a clear lack of smooth pursuit; there was nystagmus at maximum deviation and nystagmus at the angle prior to 45 degrees. The second FST was the Walk and Turn. During this FST, Bridget used her arms to balance herself, pivoted on both feet instead of stepping around the left foot like I instructed and she only took 8 steps back to the place she started from. The third FST was the One Leg Stand. During this FST, Bridget started the FST before I could finish the instructions. The fourth and final FST was the PBT. I gave Bridget instructions on the PBT of exhaling into the device until I told her to stop. Bridget would exhale for a second and then stop and the PBT device would tell me she needed to blow more and three times this happened. After the third time, I stopped the FST, and placed Bridget under arrest for DUI.

Administrative Process

I explained to Bridget, based on her driving the physiological effects I observed and the performance of the FSTs, I placed her under arrest, and Bridget told me she understood what I was doing. Officer Kunkel assisted me with impounding the Jeep and I drove Bridget to the station for the BAC test. At the station I checked Bridget's mouth and started the 15 minute observation period once her mouth was seen to be clear of foreign substances. I then read her the Implied Consent and Rights forms from the DUI packet and she signed both showing she understood them. Bridget then provided two valid samples that read .098 and .100 respectively.

After issuing the citation and DOL hearing forms, Bridget requested she be dropped off at her house instead of going to Susan's house for reasons of embarrassment. I respected that and dropped Bridget off at her house. She told me she had access to no other vehicles and she was much safer and happier going home than anywhere else.
