Sandi -

Unless we can conference call ALL parties involved so that we ALL hear the same thing, I know that after speaking with Cathy last night - AFTER she spoke with Dr. Deeb - she NOW is clear that Foxy is not, was not, and never was a WFRS ferret. Foxy was a part of the study, and that was ALL. It is time to move forward, make any corrections necessary so that this DOES NOT happen again.

I have spoken with Julie, and she will be contacting you shortly to return Foxy and retrieve Sasha.

Thanks

Liane
